Dear Mr. Arpa,

I wanted to take this opportunity to thank you for your services. Your Crew has proven to be prompt, efficient and very professional.

Your products and advice have also proven very effective at keeping my lawn healthy, green and weed free.

As you know, I have always taken a very active roll in the care and maintenance of my property. Within 2 years of purchasing our home in Richmond Hill I realized, dandy lions and grubs had far more time to destroy my lawn than I wanted to spend fixing it! Your service allows me the freedom to do the yard work I enjoy.

Not poisoning my family, pets, and our environment are impossible benefits to put a price on and I use to cringe whenever I came home to find the dreaded, "keep off grass, chemicals in use" sign used by my previous provider.

I consider the constant complements of my friends and neighbors as the icing on the cake and I recommend your Company and services to anyone with grass and a conscience.

Yours truly,

Robert J. Pryce, R.I.B.(Ont.)
